

**AFFIDAVIT FOR ACCEPTANCE OF
ZONING REQUIREMENTS**

Above Ground Pool

- An above ground pool may be placed in the side or rear yard, not in the front yard and must maintain a minimum setback of 10 feet from the rear lot line and 7.5 feet from all side yard lot lines. If the property is on a canal or waterfront, the rear setback increases to 20 feet.
- Above ground pools are not permitted within any recorded easement. Most easements are 6 feet from side lot lines and 10 feet from rear lot lines (20 feet on a canal/waterfront) but may vary by property. Please refer to property survey for exact location and dimension of easements.
- If you live within an HOA community, there may be more stringent standards. Please refer to your HOA documents or contact your community representative for more information.
- If placing on a concrete pad, a separate permit is required.

By signing this form, I acknowledge and agree to the terms outlined above and in the City's Unified Land Development Code. If the placement of the shed does not meet the Zoning Requirements, any costs incurred with compliance shall be the responsibility of the property owner and or permittee.
