Operating Budget CIP Impact Report Grouped by CIP Category, CIP Status

City of North Port

Fiscal Year 2023

Operating Budget Impact	FY 2023 Budget	FY 2024 Budget	FY 2025 Budget	FY 2026 Budget	FY 2027 Budget
-------------------------	-------------------	-------------------	-------------------	-------------------	-------------------

City Facilities

Existing CIP Project

U18UAB Utilities Administration Building & Field Operations Center

With a larger parcel of land and building, there would be additional maintenance and electrical costs. Operational expenditures are anticipated to be budgeted in Fiscal Year 2024.

Personal Services	0	0	0	0	0
Capital Outlay	0	0	0	0	0
Operations and Maintenance	0	1,000	1,000	1,000	1,000
U18UAB	0	1,000	1,000	1,000	1,000
Existing CIP Project	0	1,000	1,000	1,000	1,000
City Facilities	0	1,000	1,000	1,000	1,000

Utilities - Water Systems

Existing CIP Project

U21WPI Myakkahatchee Creek Water Treatment Plant (MCWTP) Improvements

The proposed improvements at the WTP will have a minor net operating impact on the operating budget. Operational expenditures are anticipated to be budgeted in Fiscal Year 2023.

Personal Services	0	0	0	0	0
Capital Outlay	0	0	0	0	0
Operations and Maintenance	0	1,130	1,170	1,200	1,240
U21WPI	0	1,130	1,170	1,200	1,240

U26WSP Sludge Press

A sludge press will have electrical, chemical (polymer) and hauling costs. The current process has costs associated with the removal of the sludge from the ponds and hauling, which are already included in the budget. The cost to the wastewater process is difficult to calculate but significant additional sludge is hauled from the WWTP when the WTP is discharging sludge. The overall operating budget impact should be relatively minor. Additional chemical and power but less hauling and elimination of transfers to the WTP. Operational expenditures are anticipated to be budgeted in Fiscal Year 2024.

Personal Services	0	0	0	0	0
Capital Outlay	0	0	0	0	0
Operations and Maintenance	0	0	0	0	15,000

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Analysis and remodeling project for City Hall 1st Floor NDS Operations.

Project Rationale

This project will assist in streamlining the development review process, permitting process, plan review process and over all customer service experience, as directed by Commission in the strategic plan. The goal is to create a one-stop shop of building and development services. This will be accomplished through creating one central location where customers can go to ask their building and development questions, rather than three separate locations. Having one central location will also help the Planning and Building Divisions to work more cohesively when transitioning from a project review to making a permit application.

Funding Strategy

This project is currently unfunded.

Expenditures To Date \$0

Operation Budget Impact

Operating impact will be determined at a later date.

Infrastructure & Facilities Integrity

Project Description

Construction of a municipal development services center in the Wellen Park.

Project Rationale

This project will assist in providing municipal development services for the residents of the Wellen Park. This project will serve as a satellite office for services provided by NDS to ensure efficient and effective government services are available to all residents. While City Hall is a central location to most residents of the City, the exception is Wellen Park, which is heavily populated and growing rapidly. Adding a satellite location in Wellen Park will help provide those residents, contractors and developers with easier access to NDS and the services it provides.

Funding Strategy

This project is funded by the Building Fund and ARPA funds.

Expenditures To Date \$0

Operation Budget Impact

Operating impact will be determined at a later date. Hiring additional staff for this location is not anticipated at this time.

Project Description

Nex Gen product for on-line permit submittal and electronic plan review.

Project Rationale

This product will streamline the permitting and plan review process for development within the City. The ability to submit permits electronically will reduce paper plan storage, allow for concurrent reviews, and will expedite turn around times for permits issued.

Funding Strategy

The funding strategy will be utilizing the Building Fund.

Expenditures To Date \$0

Operation Budget Impact

Operating impact will be determined at a later date.

			FY 2024	FY 2025	FY 2026	FY 2027	Future Funding
141,400	50,000	91,400	0	0	0	0	0

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

To accommodate office space within the City Manager's office for two Grant Coordinators and appropriately reconfigure the office kitchen area in the City Manager's Office, renovations are needed. The cost of this renovation includes purchasing office furniture for the new positions as well as electrical, HVAC reconfiguration and I.T. re-wiring.

Project Rationale

FY22 approved funding in the amount of \$50,000 for conference room and copy room/lobby configuration which does not cover costs for increased renovations needed for new employees within the City Manager's office. In order to make the best use of available space and create more efficient space, a portion lobby area of the City Manager's office will be reconfigured and joined with unusable hallway space to create three new office spaces for the two Grant Coordinators added in FY21-22 and a third office for a potential Assistant to the City Manager position. Additionally, the existing kitchen area will be reconfigured to create a copy/supply room and a smaller kitchen area will be created in the lobby reconfiguration.

Without funding these renovations, the City Manager will not have adequate facilities for staff and department operations. Spreading out personnel to other locations outside of the City Manager's Office may impact the timeliness and efficiency of handling complex issues needing greater coordinated efforts of staff. Additionally, without the creation of the new copy/supply area, staff will not have adequate space to perform copy functions and store supplies.

Funding Strategy

This project is funded by the General Fund.

Expenditures To Date \$0

Operation Budget Impact

No Operation Budget Impacts at this time.

Good Governance

Project Description

This is a planned replacement of core networking equipment in City Hall, to support data and voice connectivity between devices, servers, applications, and internet resources. This equipment is the backbone of how information and data travel from one place to another and is needed for all aspects of computer and voice communication.

Project Rationale

In Fiscal Year 2020, the existing equipment will be 7-8 years old. Fiscal Year 2020 IT will accomplish City Hall; Fiscal Year 2021 Family Service Center, Facilities Maintenance, and Parks and Recreations; Fiscal Year 2022 Fire Stations, Public Works, Water Plant, and Waste Water Plant.

Funding Strategy

This project in Fiscal Year 2021 will be funded by Surtax and in Fiscal Year 2022 will be funded by Fire Rescue District funds, Road & Drainage District funds, Solid Waste District funds, and Utilities funds.

Expenditures To Date \$360,679

Operation Budget Impact

The operating impact is yet to be determined.

620,000	620,000	0	0	0	0	0	0

Strategic Pillar

Good Governance

Project Description

This is a planned replacement of the following equipment Storage Area Network (SAN), Virtual Server Host, and Back-up and Disaster equipment on a 5-year replacement cycle.

Project Rationale

This equipment is being used to store all City data at City Hall and the disaster recovery center. The disaster recovery center equipment is used as a hot site for critical City applications and is activated upon a declared disaster. An addition of \$125K was asked in this last year as computer hardware and equipment prices have increased considerably due to covid and supply chain issues. IT will work diligently to procure the most useful solution at the lowest price, but this increase may be necessary to provide the City with the best option moving forward. Additional considerations regarding storage space needs for items such as Laserfiche storage of documents as well as online permit submissions have modified storage estimate costs.

Funding Strategy

This project is funded by Renewal & Replacement funds.

Expenditures To Date \$0

Operation Budget Impact

It is anticipated that system maintenance costs will be built into the initial purchase prices, for a coverage duration of 5 years.

Strategic Pillar

Quality of Life

Project Description

The Parks & Recreation Department completed an ADA evaluation of several park/facility locations utilizing the expertise of ACT Services, Inc. Based on the evaluation, recommendations for physical improvements to increase accessibility of the City's parks and facilities have been compiled into a phased transition plan.

Project Rationale

The ADA transition plan provides a phased approach to implementing physical improvements, repairs and adjustments that remove barriers preventing access to parks and facilities. Work includes adjusting restroom door pressure required to open, water faucet run time, signage, and protective pipe wrap under sinks. Other items will require outside contractors, such as the installation of concrete/asphalt walkways to pavilions, playgrounds and picnic tables; regrading of parking spaces to meet percentage of slope standards and moving toilets, sinks and grab bars to meet the configuration requirements.

Phase I in Fiscal Year 2020 included accessible routes to McKibben Park amenities. Phase II in Fiscal Year 2021 included sidewalk connections and ADA improvements at LaBrea Park and Kirk Park. Phase III in Fiscal Year 2022 included improvements to Highland Ridge Park, Hope Park, and Pine Park. Phase IV is planned to include renovations at Pine Park, Skate Park, Butler Park, Narramore Park, and the Canine Club,

Phasing may be adjusted based on funding and priorities. Future fiscal years will continue the ADA improvements throughout the parks and recreation system.

Funding Strategy

This project is funded using a Surtax allocation.

Expenditures To Date \$82,352

Operation Budget Impact

No operating impact is expected.

Project Description

Improvements to the park will include fencing, entry way, and seating alterations and removal and installation of new multi-level drinking/bowl filling water fountains and additional amenity modifications.

Project Rationale

During a budget workshop on July 20,2021 the Commission provided consensus to fund improvements to the Canine Club, not to include sod. Improvements will enhance access, surfacing and amenities.

Funding Strategy

These improvements will be made utilizing Surtax.

Expenditures To Date \$8,150

Operation Budget Impact

Additional operating impacts based upon park improvements are not anticipated.

Quality of Life

Project Description

This project is a one-mile trail section between Price Boulevard and Appomattox Drive, and is the first phase of the Myakkahatchee Creek Greenway Master Plan.

Project Rationale

The design is part of the Myakkahatchee Creek Greenway supporting the linear park concept that will increase recreational opportunities for citizens, and encourage physical activity. (Parks & Recreation Master Plan 4.0a). The City conducted a Cultural Resources Field Assessment which was approved by the State Historic Preservation Offices (SHPO). The City's Development Order expires December 31, 2023.

Funding Strategy

This project is funded by a Parks & Rec Impact Fees and Surtax allocation and also a developer contribution of \$141,646 was received in Fiscal Year 2018. The Fiscal Year 2022 additional funding is the result of a 2.4% construction escalation.

Expenditures To Date \$69,724

Operation Budget Impact

Operating impacts will include trimming and trail maintenance starting in FY2024.

Quality of Life

Project Description

Continued undeveloped land acquisition of properties along the Myakkahatchee Creek Corridor from willing sellers.

Project Rationale

To facilitate the preservation of critical environmental lands and habitats, protect the water quality, create wildlife corridors, and develop a linear parkway.

Project P07MCC closed with a total of \$3,546,991 expended. Project P15MCC was created for the purpose of continued land acquisition along the tier 1 and tier 2 properties of the Myakkahatchee Creek Corridor. On July 6, 2020 Commission provided direction to continue the purchase of only undeveloped lots. This project will roll-over until all undeveloped tier 1 and tier 2 properties are acquired. (Parks & Recreation Master Plan 4.1.c.3)

Funding Strategy

This project is funded with Escheated Lots funds, Park Impact Fees, Department of Environmental Protection funds, and a Surtax allocation.

Total expenditures for Project P07MCC and P15MCC combined to date \$3,817,670.

Operation Budget Impact

No operating impact is expected.

Project Description

This project is for the installation of a disc golf course along the Greenway beside the Skate Park and between North Port Blvd and Appomattox Blvd.

Project Rationale

Disc Golf is a versatile, inexpensive, year-round sport that promotes physical activity and can be played by all skill levels. Course design and installation will incorporate existing vegetation with minimal impact to the property.

Funding Strategy

This project is funded by Parks Impact fees and a Surtax allocation.

Expenditures To Date \$6,500 for an Environmental Report (including wetland and wildlife surveys), and permitting.

Operation Budget Impact

The operating impact of this project will include minor trail maintenance.

Quality of Life

Project Description

Development of parkland east of Toledo Blade Blvd. to meet Strategic Plan objectives and increased parkland access goals. No design services or park plans have been completed at this time.

Project Rationale

Referred to as the Italy Avenue parcel, this City owned tract is located east of Toledo Blade Blvd., south of Atwater Community Park, along the New London Waterway and is approximately 47 acres. This parcel has been identified as a location for a potential future park. In March 2020, the City Commission approved utilizing Colliers International to identify potential partners for the redevelopment of the Dallas White Park Campus. This parcel was included for consideration in that offering to provide a development partnership opportunity on the east side of the city.

Funding Strategy

Utilizing a piggyback with Colliers International to potentially develop this park in conjunction with the redevelopment of Dallas White Park. This project is projected to utilize Park Impact Fees.

Expenditures To Date \$0

Operation Budget Impact

Impact on the operating budget will be determined based on the final design and amenities.

Quality of Life

Project Description

Commission expressed a desire to have additional restroom facilities at neighborhood parks.

Project Rationale

Currently hardened restrooms are available at three neighborhood parks including Blue Ridge Park, McKibben Park, and Highland Ridge Park. The cost to install hardened restroom buildings is estimated at \$175,000.

Funding Strategy

This project is funded by a Surtax allocation. In April 2020, Commission approved applying for a Florida Boating Improvement Program grant. Parks & Recreation did not receive an award for this project.

Expenditures To Date \$2,770

Operation Budget Impact

Additional maintenance costs are anticipated for restroom cleaning and utility services once installed and are estimated at \$150 per month.

Project Description

Redevelopment of the Dallas White Park campus. No design services are completed at this time.

Project Rationale

During the August 21, 2018 Special Commission meeting, a site-specific Master Plan for the entire park site was discussed with further evaluation occurring once an ordinance was in place relative to a public-private partnership. In May of 2019, the City Commission provided direction to develop a solicitation for a public-private partnership for redevelopment of the Al Goll Building, pool buildings, Art Center, Clothes Closet, and entire campus to include a master plan and construction. In March of 2020, Commission approved utilizing the services of Colliers International for the potential redevelopment of the DWP campus and other east end opportunities.

Funding Strategy

Utilizing piggyback to work with Colliers International to potentially redevelop this park along with east end properties. This project is projected to utilize a Surtax allocation for construction if the private/public opportunity does not materialize.

Expenditures To Date \$0

Operation Budget Impact

Impact on the operating budget will be determined based upon the final design and amenities.

Project Description

Through the playground replacement schedule, the Kirk Park playground is scheduled for replacement in FY21.

Project Rationale

The playground equipment installed at Kirk Park in 2010 is aging and is ready for replacement . Surveys were conducted and the playground replacement equipment is supported by this feedback.

Funding Strategy

This project is funded by a reimbursable Community Development Block Grant. The grant agreement was executed in March of 2022.

Expenditures To Date \$0

Operation Budget Impact

Replacing the playground equipment with similar equipment; therefore no additional operating impacts are anticipated.

Quality of Life

Project Description

Build and equip a park to honor Veterans of all U.S. Military forces, past, present and future.

Project Rationale

On September 23, 2019 a joint meeting was held with the City Commission and the Historic and Cultural Advisory Board. During that meeting direction was provided for staff to come back with proposed areas to relocate Veterans' Park and first present those to, and receive information and feedback from, the Historic & Cultural Advisory Board and Parks & Recreation Advisory Board and to bring back feedback to Commission for a decision. On September 8, 2020 Commission approved the City Center Complex site for the new park location. Parks & Recreation was tasked with establishing an Ad Hoc Committee to develop design options and assist with fund raising.

Funding Strategy

This project is tentatively scheduled utilizing a Parks Impact Fee allocation.

Expenditures To Date \$1,700

Operation Budget Impact

The operating impact will be determined once the final design and amenities are determined.

Quality of Life

Project Description

Sarasota County is developing the Legacy Trail Extension into North Port and is constructing a connector bridge to this trail from Deer Prairie Creek Preserve. The City desires to enhance this project with the addition of a grass and ADA parking area with associated amenities.

Project Rationale

As Sarasota County continues to develop construction plans for the Legacy Trail, it was determined that the connector bridge is part of their planned scope, however, the City anticipates developing a parking area utilizing these project funds.

Funding Strategy

This project is funded by a Surtax allocation and funds donated. On 6/28/21 Gulf Coast Community Foundation, in partnership with the Trust for Public Lands, approved an allocation of the \$33,500 grant (check #197940 dated 7/26/19 \$8,500; check# 197623 dated 7/17/19 \$25,000) provided to the City on July 18, 2019 to improve the (Price Blvd.) parcel with limited grass parking, accessible parking and landscape/hardscape to provide buffer and enhance public access.

Expenditures To Date \$0

Operation Budget Impact

Future operating impacts are unknown at this time and contingent upon the amenity installed.

Quality of Life

Project Description

Through the playground replacement schedule, the Dallas White Park playground is scheduled for replacement in FY2022. This replacement equipment will include will include shade structures.

Project Rationale

The playground equipment was installed at Dallas White Park in 2010. This highly used equipment is aging and will be ready for replacement in Fiscal Year 2022. Surveys were conducted of the users to determine the amenities to include in the new playground equipment. The playground equipment will be installed in coordination with the Collier's Intl. re-development opportunity for Dallas White Park.

Funding Strategy

The project is funded using a Surtax allocation. The City received a donation in the amount of \$10,000 from the North Port Kiwanis to support the purchase of a wheelchair accessible playground equipment piece for Dallas White Park.

Expenditures To Date \$0

Operation Budget Impact

Replacing the playground equipment with similar equipment; therefore no additional operating impacts are anticipated.

Project Description

The City of North Port took over the operation and maintenance of the Narramore Park Sports Complex in July of 2021. This project continues the field rehabilitation and replacement plan implemented by Sarasota County.

Project Rationale

The three soccer fields at Narramore Park are scheduled for rehabilitation, one field per year over three consecutive years. The first field scheduled for rehabilitation will correct a drainage issue causing field flooding. This renovation is in line with the recommendation from Sarasota County and Parks & Recreation Athletic Field Specialists.

Funding Strategy

This project is funded using a Surtax allocation.

Expenditures To Date \$0

Operation Budget Impact

No additional operating impact anticipated.

Strategic Pillar

Quality of Life

Project Description

This project is for the implementation of the Canal & Creek Master Plan. The Master Plan was adopted in May 2010.

Project Rationale

In 2017, the initial phase of the Master Plan was completed connecting Blue Ridge, McKibben, Dallas White, and Butler Parks. Phase II includes portages at six (6) Water Control Structure locations and access points at four (4) locations. Access points include two (2) on the MacCaughey Waterway; one (1) on the Lagoon Waterway; and one (1) on the Snover Waterway. The budget request is based upon the 2010 Master Plan and cost estimates will need revision based upon recommended phasing. (Parks & Recreation Master Plan 4.0a-10)

Funding Strategy

This project is funded by a Surtax allocation and the estimate of construction cost is factored by 2.4% per year since the 2010 Creek Canal Master Plan cost estimate was received.

Expenditures To Date \$0

Operation Budget Impact

Impact on the operating budget will be determined based upon the final design.

Quality of Life

Project Description

This project will start the design development leading to future construction of the 137 +/- acre North Port South River Road Park. This parcel will include other city government offerings and the park acreage may be amended based on those needs.

Project Rationale

The Post Annexation agreement for Wellen Park requires that this acreage be conveyed to the City.

Funding Strategy

Funding considerations include evaluation of a partnership with Sarasota County Parks, Recreation and Natural Resources to develop a regional park and the use of park impact fees. Currently the funding identified is a placeholder for future improvements.

Expenditures To Date \$0

Operation Budget Impact

Impact on the operating budget will be determined based upon the final design.

Project Description

Through the playground replacement schedule, the Atwater Park playground is scheduled for replacement in 2026.

Project Rationale

The playground equipment at Atwater Park was installed in 2016 and is aging, and will be ready for replacement ready in 2026. Surveys will be conducted of users to determine the amenities to include in the new playground design.

Funding Strategy

This project is funded using a Surtax allocation.

Expenditures To Date \$0

Operation Budget Impact

Replacing the playground equipment with similar equipment; therefore no additional operating impacts are anticipated.

Quality of Life

Project Description

This project includes site preparation services and dog park amenities of an off leash dog park east of Toledo Blvd Blvd. Staff reviewed all City owned parcels in consideration of potential locations east of Toledo Blade Blvd and recommends the Italy Avenue parcel for the next dog park.

Project Rationale

On Feb. 4, 2021, the Commission provided direction to develop a CIP for a new dog park east of Toledo Blade Blvd. This project is contingent upon final design and amenities associated with project P19AP4.

Funding Strategy

This project is funded using an Impact Fee allocation.

Expenditures To Date \$0

Operation Budget Impact

Recurring maintenance costs to be determined based upon the final location and design.

Quality of Life

Project Description

This project is part of the master plan implementation for Warm Mineral Springs Park. The initial phase of the master plan addresses building restorations, and improvements to the parking lot and utility infrastructure.

Project Rationale

On April 9, 2019 Commission adopted the Warm Mineral Springs Park Final Master Plan. This project will restore the historic buildings which are listed on the National Historic Register and provide improvements to the parking area and utility infrastructure.

Funding Strategy

Funding sources for this project are Park & Rec Impact Fees, Warm Mineral Springs, and Surtax.

Expenditures To Date \$996,364

Parks & Recreation has sought grant opportunities for this project, which include:

- 2019 - State Historical Special Category Grant Building Improvements \$500,000 - not funded.
- 2020 - State Historical Special Category Grant Building Improvements \$500,000 - not funded.
- 2021 - State Historical Special Category Grant Building Improvements \$500,000 - not funded.
- 2020 - State Appropriations Request Water and Sewer Extension \$875,000 - not funded.
- 2021 - State Appropriations Request Water and Sewer Extension \$875,000 - not funded.

Operation Budget Impact

No additional impact on operating budget is anticipated as a result of the building restoration and improvements.

Project Description

Procurement and installation of an emergency generator for City Hall.

Project Rationale

City Hall serves as the center of government daily operations and as the center location for the coordination of decision-making and emergency operations during disasters. Emergency backup electrical power to City Hall is required for the continuity of mission critical operations during "blue sky" or disaster response.

Funding Strategy

This project is funded with Surtax and a FEMA grant. \$455K is going through Surtax and \$70K through General Fund totaling the original FEMA grant amount of \$525,000. HMGP grant increase was recently improved, the grant has been increased to \$766,650.

Surtax release from this project is tied as a revenue source for F1781. Once this project completes, the excess funding will be reassigned.

Expenditures To Date \$219,564

Operation Budget Impact

Some operational impact is expected for replenishment of diesel fuel, preventative maintenance of the generator, utilities, and cleaning of EOC support facilities in City Hall.

Project Description

Design and renovate Fire Station 81 and Headquarters.

Project Rationale

The current station interior is worn, dated, inefficient, and in need of an overhaul. This facility was constructed in 1997 and opened in 1998, and is utilized 24-hours a day on a year-round basis. This project renovates the entire building to update and modernize the fire station and administrative offices to address current and future needs. During construction, staff and apparatuses will need to be relocated. Additional funding is requested in Fiscal Years 2021-2022 due to an 5% increase in construction costs, additional construction costs, site work for the property and relocation of staff during construction.

There will be cost savings of Surtax funding in CF19EO. Once CF19EO completes, Surtax funding will fund remaining \$538,540. There will be a subsequent Phase to this project which includes replacing/restoring the existing roof in Fiscal Years 2022-2023.

Funding Strategy

FY 2022 (Funded)	FY 2022 (Unfunded until CF19EO Completes)	FY 2023 (Funded)
\$300,000 District Fund	\$370,640 Surtax Release from CF19EO \$167,900 Surtax Release from CF19EO	\$250,000 R&R District \$250,000 FM General Fund

Safe Community

Project Description

This project is for the future location of either the purchase of property, design and construction of a new fire station (Fire Station 87) tentatively in the area north of I-75 at N. Toledo Blade Blvd or West Village (WVID) area, funded by the developer according to the Principles of Agreement. The Engine and Ambulance will be purchased in FY 2026 when the Surtax III funding will become available. The timeline of this project could change.

Project Rationale

The station and its associated vehicles are projected to be funded by a source TBD. Based upon projected new development and the resulting Impact Fees, we do not believe there will be sufficient funds reserved at the time the facility is required.

Funding Strategy

This project is proposed to be partially funded by Surtax. The remaining amount is TBD.

Expenditures To Date \$0

Operation Budget Impact

This project will have a significant impact on operational and personnel costs. With the opening of the new Fire Station, additional staffing will be needed to meet the service level needs of the District. These costs will be adjusted when they become more defined.

Project Description

This project is for the construction of a storage building behind Station 85.

Project Rationale

With the growth of the city and increase need for storage area for reserve fleet and logistics, Fire Rescue is asking for a storage building for the city owned property behind Station 85. This property would have the ability to house reserve units and protect them from the elements as well as provide an area for our logistics and maintenance personnel, as we are outgrowing available space at Station 84 where they are currently located.

Funding Strategy

This project is currently unfunded. It is proposed to be funded by Surtax.

Expenditures To Date \$0

Operation Budget Impact

Operating impacts include building maintenance, utilities, and miscellaneous supplies.

Strategic Pillar

Safe Community

Project Description

Staffing is recommending expansion of the current Police Department in order to maintain and provide future law enforcement services.

Project Rationale

The department is operating at 185% above capacity. The City of North Port is rapidly growing in population, commercial business and entertainment venues. This growth is causing an increase in service levels across the entire operations of the Police Department. The need to expand the police department is immediate. There are other proposed Capital Improvement Projects (CIP) currently that will help reduce the amount of expansion and renovation needed for the current Police Department facility. One current project is CIP PD21PE, which is to create and standalone two-story Property Evidence and Crime Scene building that will also accommodate a 911 Telecommunications and an Emergency Operation Center.

Funding Strategy

The project funding is to be determined.

Per Commission at the July 20, 2021 Budget Workshop this project was unfunded, and no funds would be rolled into FY 2022.

Expenditures To Date \$65,168

Operation Budget Impact

Operating costs will be determined upon design completion.

Strategic Pillar

Safe Community

Project Description

Staff is recommending the driving track located on Price Boulevard be brought up to meet today's standards of the Florida Department of Law Enforcement.

Project Rationale

In the 1990's, a certified law enforcement driving track was constructed for the purpose of law enforcement driver training for local law enforcement. The driving track does not meet today's Florida Department of Law Enforcement (FDLE) standards. The current driving track is certified under a "grandfather" clause with the state and any changes or addition to the track will break the grandfather clause a new driving track 300 x 600 would have to be constructed to meet today's FDLE standards. In 2019, the Sarasota County School Board and the City of North Port canceled a Usage and Maintenance Agreement, and the property was turned back over to the City of North Port. It is the intention to have the current driving track land located next to our City Utilities Department become a public safety complex to where Police and Fire, both local and surrounding, can utilize the driving track for training purposes.

Funding Strategy

Requesting this project to be funded by Surtax.

Expenditures To Date \$168,461

Operation Budget Impact

Operating costs will be determined upon completion of planning and design.

1,200,000	1,200,000	0	0	0	0	0	0

Strategic Pillar

Safe Community

Project Description

Installation and implementation of Automatic License Plate Readers throughout the city.

Project Rationale

Staff is recommending the expansion of the use of Automatic License Plate Readers (ALPR's) throughout the city. ALPR's have proven to enhance safety to the community and law enforcement by providing immediate alerts when wanted vehicles or people are located with the potential to prevent crime. ALPR's further provide strong leads to investigators when a vehicle is used in the commission of a crime within the city, which could lead to quickly identifying suspects and locating loved ones who have been reported missing (silver alerts, abductions, etc.). There will be approximately twenty-three (23) selected site locations for fixed ALPR's throughout the city. The selected locations would capture vehicles traveling in and out of the city through the main points of travel. Staff is recommending a two-phase implementation approach that will include equipment, software installation and infrastructure. For Fiscal Years 2020-2021 approximately thirteen (13) site locations will be installed and in Fiscal Years 2021-2022, approximately ten (10) additional site locations and the data center where the ALPR and other various camera systems throughout the city such as but not limited to: city parks and city facilities will be monitored. The data center will be located at the Headquarters of the Police Department and will be operated by current staff. There will be some minor construction needed to complete the data center and the cost to include furniture and computer equipment and software has been included in the total PD21LP project from inception.

Funding Strategy

Requesting this project be funded by Surtax.

Expenditures To Date \$788,967

Operation Budget Impact

Operating impacts include implementation of equipment and license fees per camera, which includes software and updates.

Safe Community

Project Description

Planning, design, and construction of a building for multi-use of Police Department Units.

Project Rationale

The Department is operating at 185% above its current capacity. The City of North Port is rapidly growing in population, commercial business and entertainment venues. The growth of these areas is causing an increase in service levels across the entire operations of the Police Department. The need to expand the Police Department is immediate, however, funding for what is needed to expand the current Police Department or new facility would not be available until Fiscal Years 2025-2029. Staff has continued to explore ideas to accommodate space needs until appropriate funding is available for an expansion or new facility. The Police Department is recommending, based on commission direction to construct a one to two-story building on city owned land. The one/ two-story design would house Crime Scene and Property Evidence, 911 Telecommunication center and the City's Emergency Operation Center. Staff has selected an architectural firm for a multi-phase design build. The architectural firm will include creating the design, needs, cost and material breakdown and executing the build/construction of a new two-story Police Department Facility to house Telecommunication, Emergency Operations Center, Crime Scene and Property Evidence. Research will also include costs for renovations of the current headquarters. It is important to provide the full impact costs of this project which should include the costs of renovating the areas of the current headquarters that would become vacant once staff is moved into a new facility.

Funding Strategy

Requesting to be funded by Surtax.

Expenditures To Date \$0

Operation Budget Impact

Operating costs will be determined upon design completion.

Strategic Pillar

Safe Community

Project Description

A Public Safety Building is being constructed in the Wellen Park Community for both Police and Fire.

Project Rationale

The Police Department continues to struggle with needed space at the Police Department’s main headquarters. Currently, a Public Safety Building is being constructed in the Wellen Park Community that will serve both police and fire personnel and equipment. Part of the Principles of Agreement between the City of North Port and the Wellen Park District was to construct 6,000 square feet of office space for the law enforcement side of the building. Of the 6,000 square feet (sqft) 1,200 sqft was to be left as a shell for future expansion and would require the City to finish the interior construction and furnishings for the remaining 1,200 sqft. The Police Department is requesting that the shell be completed now while it is under construction and furnished due the tremendous growth of our department is facing. This additional space, if fully constructed and furnished, will give the department a little breathing until a new headquarters or expansion of the current headquarters is completed. This will allow us to maintain effective operations and police services to our community.

Funding Strategy

The project is funded with Law Enforcement Impact Fees.

Expenditures To Date \$228,699

Project Description

Replacement of two HVAC chiller units used to cool City Hall and the Police Department buildings.

Project Rationale

The chiller units are at end of service life. The replacement of the chiller units with updated, more efficient units will reduce energy consumption as well maintenance and repair costs. The estimated annual savings in energy and repair are \$50,000.

Funding Strategy

This expenditure is from the General Fund although specific funding has not been identified for this project.

Expenditures To Date \$0

Operation Budget Impact

Annual savings in energy and repair estimated at \$50,000.

Infrastructure & Facilities Integrity

Project Description

This Project is to design and prepare engineering plans, specifications and estimates for competitive bidding to Award a Contract for the acquisition of land for stormwater ponds, dark fiber installation, and construction needed to expand Price Boulevard to 5 lanes within the existing 100-foot right-of-way between Sumter Boulevard and Toledo Blade Boulevard.

Project Rationale

Project also includes water and reclaimed water. Staff will evaluate potential financing.

Funding Strategy

This Project is partially funded with the following sources: Escheated Lots, Transportation Impact Fees, Surtax, and Utilities. Alternative funding sources are being pursued for the remainder of the Project costs.

Expenditures To Date \$3,685,733

Operation Budget Impact

The operating impact of this project includes the addition of general maintenance and electrical for streetlights. Future maintenance costs for utilities include the water line and hydrants, and will be calculated when design is complete. Debt service is the potential financing.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

This Project will reconstruct the roadway and make drainage improvements on Tropicaire Boulevard from Van Camp Street to Toledo Blade Boulevard.

Project Rationale

Tropicaire Boulevard is showing signs of pavement failure, including base failure. The Project will include field investigation of the base material's current condition along Tropicaire Boulevard, and identification of areas that will require full depth pavement reconstruction and areas that will require only mill and fill. Analysis of existing drainage conditions and drainage infrastructure will also be included in the scope of the work. A reconstruction plan for the entire corridor of Tropicaire Boulevard from Van Camp Street to Toledo Blade Boulevard will indicate: areas that will require full depth pavement reconstruction; areas that will need only mill and fill; and required drainage improvements. This Plan will be provided for a contractor to bid on the work.

Funding Strategy

Project funding is from Surtax and the Road and Drainage District.

Expenditures To Date \$1,927,103

Operation Budget Impact

Reconstructing the areas that currently have base failure will minimize future expenditures in maintenance of Tropicaire Boulevard like asphalt repairs and shoulder rehabilitation. The drainage improvements will extend the useful life of the road.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Annual maintenance, rehabilitation and replacement of the City's stormwater drainage system infrastructure in Grid 307, Pan American Boulevard seawall at Jeffrey Lake, Talbot Street outfall, Talbrook Road and Mayland Street stormwater pipes.

Project Rationale

This includes pipe replacement, outfall piping and culvert installation, and rehabilitation of swales, retention ditches and canals. These improvements are part of a viable Drainage Program to maintain water quality and control potential flooding.

Funding Strategy

This Project is funded by Road & Drainage District funds and Surtax.

Expenditures To Date \$1,005,780

Operation Budget Impact

This Project is an enhancement and improvement to the existing stormwater drainage system. Operational and economic efficiencies will be realized from the improvements to this stormwater drainage system.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Phase II is anticipated for construction in 2024, and includes buildings for personnel and storage of equipment and supplies, parking areas and an outdoor Fleet Management Division repair facility. The buildings for personnel and storage of equipment and supplies are proposed to be built on Road and Drainage District property directly east of the current facility.

Project Rationale

Phase I of the Public Works Facility Master Site Plan was completed in 2012 with construction of the Fleet/Administration building and parking areas. The existing modular buildings that house the Facilities Maintenance Division and Solid Waste Division staff, and the dated building that houses the Operations and Maintenance Division staff would be removed and additional stormwater and parking areas would be constructed on the current site. New personnel and storage buildings would be constructed on the Road and Drainage District property east of the Phase I facility. A Preliminary Space Needs Assessment was completed in 2010 and a Master Design Concept was completed in 2011, but both would need to be revised with current information.

Funding Strategy

This Project is funded by Road & Drainage District funds, Solid Waste District funds, Fleet Management Funds and General Government Impact Fees.

Expenditures To Date \$36,438

Operation Budget Impact

When the Project has appropriated funding, any operating impacts will be determined at that time.

Project Description

The City of North Port and Charlotte County entered into an Interlocal Agreement for the Study, Design, and Construction of intersection improvements at Hillsborough Boulevard and Cranberry Boulevard. The Intersection Alignment Study is was completed in Fiscal Year 2021. The Design/Permitting Phase will identify land acquisition and will begin in Fiscal Year 2022 with completion anticipated in Fiscal Year 2023.

Project Rationale

Project costs are split 50/50 between the City of North Port and Charlotte County. Study costs are \$141,170 and Design costs are \$389,160. The draft study has estimated construction costs at \$2,694,130.

In the current Appropriated to Date the City has appropriated \$546,200 and the funds from Charlotte County is \$71,200 for the Study costs. In FY 2022 the City will receive \$194,580 from Charlotte County for the Design costs.

Funding Strategy

This project is funded by Road & Drainage District funds, Surtax funds, ARPA funds, and funding by Charlotte County (Outside Agency).

Expenditures To Date \$220,448
 Reimbursement To Date \$71,196

Operation Budget Impact

Future operating costs will be determined after the project design is determined.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Commission directed amenities such as shade structures, benches, trash receptacles, bicycles racks, lighting and landscaping be added to the multi-modal path constructed by the Florida Department of Transportation between Tuscola Boulevard and Ortiz Boulevard. The Commission directed that the department of Public Works plan to install a greater ratio of trees than benches for this project.

Project Rationale

Funding this project for completion will provide greater appeal for the public to utilize the multimodal path and its amenities between Tuscola Boulevard and Ortiz Boulevard. This project will be funded by \$250,000 of surtax funds as approved by the Commission.

Funding Strategy

Initial project funding was from Surtax but per Commission direction \$48,754 is being reallocated to the Tropicaire Blvd. Road Reconstruction Project R19TRR, and \$66,446 is being reallocated to the Tropicaire Blvd. Pedestrian/Bicycle Shared-Use Path Project R18PBT.

Expenditures To Date \$0

Operation Budget Impact

Operating impact will be determined after project design is completed.

Infrastructure & Facilities Integrity

Project Description

A Warrant Study was completed and indicated a signal was warranted for Price Boulevard and North Port High School/Heron Creek Middle School Driveway Entrances. Additional funds are proposed for the traffic signal construction in Fiscal Year 2022. Pursuant to City Commission direction, staff has discussed financial participation with the Sarasota County School Board but have not been successful in getting any confirmation.

Project Rationale

The traffic signal will moderate vehicle traffic from the High School and Middle School.

Funding Strategy

This project is funded by Road & Drainage District funds and Surtax.

Expenditures To Date \$107,029

Operation Budget Impact

Operating impacts include the maintenance and electricity of the traffic signal.

Quality of Life

Project Description

Design and construct a City of North Port welcome sign at the City's boundary on east US 41.

Project Rationale

During the US 41 widening project, the City of North Port's welcome sign on the eastern edge of the City was removed. This new sign will improve City gateway features, serving as a welcome to the City and delineating where the City boundary begins. This project will not move forward until funding is secured.

Funding Strategy

Fiscal year 2021 City Manager Recommended funding was from Surtax but per Commission direction, \$117,600 is being reallocated to the Tropicaire Blvd.

Pedestrian/Bicycle Shared-Use Path Project R18PBT.

CM Recommended Allocation \$117,600

Transfer to R18PBT (\$117,600)

Adjusted Allocation \$0

Expenditures To Date \$0

Infrastructure & Facilities Integrity

Project Description

Annual maintenance, rehabilitation and replacement of the City's stormwater drainage system infrastructure. Work will include starting Grid 204 west of Salford, and the continued surveying of the Cocoplum Waterway.

Project Rationale

This includes pipe replacement, outfall piping and culvert installation, swale rehabilitation and retention ditch rehabilitation. These improvements are part of a viable Drainage Program to maintain water quality and control potential flooding.

Funding Strategy

This Project is funded by Surtax and Road and Drainage District funds.

Expenditures To Date \$238,390

Operation Budget Impact

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Construct a traffic signal on Toledo Blade Boulevard at the I-75 northbound entrance and exit ramps. Planning and design in Fiscal Year 2022 and construction in Fiscal Year 2023.

Project Rationale

There are extremely long queues in the morning and evening peak hours at the I-75 interchange at Toledo Blade Boulevard creating unsafe conditions. The installation of the traffic signal can greatly improve the operations and safety of this interchange.

Funding Strategy

As the Florida Department of Transportation (FDOT) will not have this improvement on their project list until at least 2027, the quickest alternative is for the City to move forward with design and apply for construction grants including FDOT Local Agency Program (LAP) funding. Surtax has been allocated for the Plan/Design/Engineering phase.

Expenditures To Date \$0

Operation Budget Impact

Operational impacts include signal maintenance.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

The acquisition of land need to access drainage infrastructure.

Project Rationale

General Development Corporation sold parcels around drainage infrastructure such as water control structures and retention ditches without leaving land for maintenance access. There have been sufficient vacant parcels throughout the City available for access but with the City's growth, these parcels are being developed. Road and Drainage needs to acquire these parcels to have access for repair and maintenance of the drainage system.

Funding Strategy

The funding strategy is Road & Drainage District.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Construct a ten-foot wide multi-use path along the southeasterly right-of-way on Ponce De Leon Boulevard from Skyview Drive to Hornbuckle Boulevard. Design Fiscal Year 2022 and construct Fiscal Year 2023.

Project Rationale

Construction of sidewalks/multi-use paths is a priority of the City Commission and residents. Each year, funding is appropriated to design and construct sidewalks/multi-use paths to provide safe pedestrian travel primarily within a 2-mile radius of schools, and secondarily, on all arterial and collector roads. This section will continue the existing sidewalk on Ponce De Leon Boulevard that ends at Skyview Drive.

Funding Strategy

This project is funded by Road and Drainage Funds and Surtax Funds.

Expenditures To Date \$47,356

Operation Budget Impact

The operating impact of this Project will include finished mowing costs and sidewalk repairs.

2,000,000	500,000	0	0	0	1,500,000	0	2,819,700

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Design, build and operate a Solid Waste Transfer Station to safely and efficiently manage the City of North Port's solid waste. Obtain land for Transfer Station in Fiscal Year 2022, design and engineer in Fiscal Year 2025 and build in Fiscal Year 2026. This progression allows for funding to come from Solid Waste Impact Fees and Surtax IV.

Project Rationale

In Fiscal Year 2022, obtain land for the Transfer Station. In Fiscal Year 2025, an engineering consultant will be hired to develop a Solid Waste Transfer Station solicitation and a consultant will be hired to conduct a Cultural Resource Assessment and Environmental Assessment on the proposed Transfer Station property. Construction is anticipated to start in Fiscal Year 2026 and be completed in Fiscal Year 2027.

Funding Strategy

Surtax funding allocated for the Solid Waste District will be used to acquire the land and it is anticipated that Solid Waste Impact Fees and Surtax IV Funds will be used to fund design and construction of this project.

Expenditures To Date \$42,648

Operation Budget Impact

More efficient solid waste collection, more beneficial disposal options, and improved community access to solid waste disposal. Budget impacts associated with the facility will apply after Fiscal Year 2026.

Project Description

This Department of Public Works is seeking to fund the establishment of a Facility Maintenance Building Fund for Repair and Replacement to prevent unwarranted deferred facility maintenance. This portion is related to the General Fund portion needed to cover 25% of the building components of the \$78,000,000.00 of facility replacement cost. Special districts would contribute other funds related to their portion of building components each year.

Project Rationale

Funding Strategy

This program will be funded by the General Fund.

Expenditures To Date \$0

Operation Budget Impact

This fund would assist in ensuring major facility components are repaired and replaced appropriate available funds providing cost savings and and ability to achieve project deadlines.

Project Description

Annual Project for Rehabilitation of City Bridges.

Project Rationale

City bridges are inspected annually by the Florida Department of Transportation and a Report is provided. Deficiencies identified in the Report are reviewed and corrective actions are taken by the City.

Funding Strategy

This Program will be funded by Surtax.

Operation Budget Impact

No operating budget impact is expected.

Project Description

Annual maintenance, rehabilitation and replacement of the City's stormwater drainage system infrastructure.

Project Rationale

This includes pipe replacement, outfall piping and culvert installation, swale rehabilitation and retention ditch rehabilitation. These improvements are part of a viable Drainage Program to maintain water quality and control potential flooding.

Funding Strategy

This program will be funded by Road & Drainage District Funds and Surtax.

Operation Budget Impact

This program is an enhancement and improvement to the current system, thus will provide a cost savings to the system.

Project Description

Construction of sidewalks and pedestrian bridges is a priority of the City Commission and residents.

Project Rationale

Each year, funding is appropriated to Design and Construct sidewalks and pedestrian bridges to provide safe pedestrian travel primarily within a 2-mile radius of schools, and secondarily, on all arterial and collector roads.

Funding Strategy

This Program is funded by Road & Drainage District funds and Surtax.

Operation Budget Impact

The operating impact of this Program will include finished mowing costs and sidewalk repairs.

Infrastructure & Facilities Integrity

Project Description

Design, Permit and Replace aging water control structures (WCS).

Project Rationale

The tentative plan includes:
 Fiscal Year 2024 Design WCS No. 158, Construct WCS No. 157
 Fiscal Year 2025 Design WCS No. 121, Construct WCS No. 158
 Fiscal Year 2025 Design WCS No. 128, Construct WCS No. 121
 Fiscal Year 2026 Design WCS No. TBD, Construct WCS No. 128

Funding Strategy

Surtax funding is needed to continue designing and constructing one water control structure per year. More aggressive sustainable funding is needed to adequately rehabilitate the water control structure system.

Operation Budget Impact

No operation budget impact.

			FY 2024	FY 2025	FY 2026	FY 2027	
1,524,102	1,524,102	0	0	0	0	0	0

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

This project is for the permitting and installation of permanent facilities following completion of Cycle Test 5.

Project Rationale

The Southwest Florida Water Management District (SWFWMD) had preliminarily approved funding for this project at 50%. Obtaining continued funding for this project was a significant achievement. Diversifying raw water sources is important for water supply reliability. With respect to costs of treatment, the treatment of brackish groundwater sources is more costly than for surface water. With respect to availability, surface waters are readily available during the summer rainy season as opposed to the winter dry season when seasonal populations and water demands are at their highest. An Aquifer Storage and Recovery (ASR) system allows for the storage of surface water during the rainy season and recovery of that water during the dry season, when demands are at their highest.

The operational permit has been submitted and Utilities is coordinating with the Florida Department of Environmental Protection to obtain this permit.

Funding Strategy

This project is funded by Water Capacity Fees and a SWFWMD grant.

Expenditures To Date \$1,521,520

Operation Budget Impact

Operation of the ASR well adds maintenance and operations costs. Electrical costs increase with pumping water into storage and when withdrawing water out of storage. Pre treatment chemicals will increase chemical costs. Chemical costs will be more initially and are anticipated to decrease over time with maturity of the aquifer bubble. Operational expenditures have been budgeted for Fiscal Year 2022.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Needs and site selection analysis, design, permitting, and construction of a new administration and field operations building.

Project Rationale

The existing building is not adequately sized for the number of staff currently working out of the building. Additionally, the existing building is owned by the Public Works Department and can be repurposed for something more appropriate. The existing site is adjacent to the training track for Police and Fire, which is also near an archeological site; therefore, no additional property is available in the immediate vicinity to expand the existing site. Moving the office, inventory, historical documents, staff, and operations to a larger location to allow for growth would be more appropriate.

Funding Strategy

This project is funded by Utilities funds, Water Capacity Fees, and Sewer Capacity Fees.

Expenditures To Date \$3,366,844

Operation Budget Impact

With a larger parcel of land and building, there would be additional maintenance and electrical costs. Operational expenditures are anticipated to be budgeted in Fiscal Year 2024.

Impact Description	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027

Strategic Pillar

Environmental Resiliency & Sustainability

Project Description

This project is to extend water/wastewater to residents throughout the City in a methodical, economical manner to maximize efficiency and minimize cost.

Project Rationale

Giffels & Webster developed a master plan including maps for a phased expansion. Commission reached a consensus to move forward with design for the first phase of the project in the Blue Ridge-Salford North area. As customers connect, payments toward the line extension could go back to the Surtax fund, serving as a revolving fund for future expansions.

Funding Strategy

The project is funded by Surtax and Utility Revenue Fund.

Expenditures To Date \$442,387

Operation Budget Impact

Addition of new pipeline to the distribution system inherently increases operational costs over time. However, improvements should also decrease operational costs by improving water quality in the system.

Strategic Pillar

Economic Development & Growth Management

Project Description

This project is to extend water/wastewater to the commercial areas at the I-75/Sumter interchange.

Project Rationale

This project is to extend water/wastewater to the commercial areas at the I-75/Sumter interchange to encourage economic development. This will also serve residents in the areas on Sumter Boulevard from South of Hansard Avenue to Kalish Avenue

Funding Strategy

This project is funded by Surtax and ARPA Funds. Per Commission direction at the June 16, 2022 Workshop the overfunding was left in the project due to anticipated increases in project costs.

Expenditures To Date \$167,940

Operation Budget Impact

Addition of new pipeline to the distribution system inherently increases operation costs over time. However, improvements should also decrease operations costs by improving water quality in the system.

Project Image

2,552,597	2,552,597	0	0	0	0	0	0

Strategic Pillar

Economic Development & Growth Management

Project Description

This project is to extend water/wastewater to the commercial areas at the I-75/Toledo Blade Blvd. interchange.

Project Rationale

To unlock the development potential at the interchange to increase one-time development revenue, annual tax revenue and new job creation, infrastructure is deemed necessary to increase competitiveness of this site.

Funding Strategy

This project is funded by Florida Job Growth Grant, ARPA Funds, Surtax Funds, and Utility Funds.

Expenditures To Date \$174,446

Operation Budget Impact

Addition of new pipeline to the distribution system and lift station, if applicable, inherently increases operation costs over time. If lines are put in service prior to enough demand, there could potentially be operating impacts from the expense of flushed water and potential additional maintenance on parts and equipment.

576,885	576,885	0	0	0	0	0	0

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Fiscal Year 2021 included design for Haberland Boulevard, Woodhaven Drive/Bobcat Trail and North Toledo Blade Boulevard Bridges. Construction is anticipated to commence in fiscal year 2022.

Project Rationale

To improve the potable water distribution system reliability to the residents of the City. The project is in various locations in the City. Replacement of aged water lines on three bridges is planned, with additional ones in the future. Old steel water lines on bridges have reached end of their service life and pipe deterioration and leaks are on pipe bends that cannot be readily repaired. Some very small leaks are unable to be stopped at this time resulting in un-billed water loss.

Funding Strategy

This program will be funded by Surtax and Utilities funds.

Expenditures To Date \$1,150

Operation Budget Impact

Replacement of these pipelines will prevent potential catastrophic failure and emergency repairs, which will be more costly than current planned replacements.

1,621,410	1,621,410	0	0	0	0	0	0

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

The project is in various locations of the City. Project locations to be determined and prioritized based on results of fire flow and water quality dynamic hydraulic modeling. The focus areas for Fiscal Year 2021 were S. Hartsdale Street, Aldovin and Totem Avenues. The focus areas for design in Fiscal Year 2022 will be Lamplighter and Rockwell Avenues, Renault Circle, Meroni Boulevard, and Ridgewood Drive with construction to follow.

Project Rationale

To improve potable water distribution system reliability, fire flow, water quality and pressure as well as reduce the amount of flushing necessary to maintain water quality. The project is in various locations of the city. Project locations to be determined and prioritized based on results of fire flow and water quality dynamic hydraulic modeling. Some existing potable piping exceeds 40 years of age and the scattered design of water "distribution" lines with many less than 6" diameter is detrimental to the overall system. Throughout the city, improvements are needed to replace old asbestos cement lines, increase system reliability and fire flow, water quality and pressure, and reduce flushing. The community, as a whole benefits from these projects since the water system supplies water to institutional/commercial/industrial developments.

Funding Strategy

This project will be funded with Surtax and Utilities Funds. The City also received a grant from SWFWMD.

Expenditures To Date \$548,084

Operation Budget Impact

Addition of new pipeline to the distribution system inherently increases operation costs over time. However, improvements should also decrease operations costs by improving water quality in the system, as applicable, and by replacing old asbestos cement main with new, as applicable.

Infrastructure & Facilities Integrity

Project Description

Removal and relocation of the watermain on the bridge located on Ortiz Boulevard.

Project Rationale

In conjunction with a Parks & Recreation project, funding will need to be allocated by the City for design and construction for the removal and relocation of the watermain that is currently affixed to the bridge. The existing 8" steel main will be removed from the bridge and replaced with a 12" high-density polyethylene (HDPE) pipe which will be install via subaqueous horizontal direction drill beneath the waterway.

Funding Strategy

This project will be funded with Utilities Funds, Water Capacity Fees and Surtax Funds.

Expenditures To Date \$5,890

Operation Budget Impact

Replacement of this pipeline will have no operational impacts.

Project Description

This project will implement improvements at the Myakkahatchee Creek Water Treatment Plant (MCWTP).

Project Rationale

This project will implement improvements at the Myakkahatchee Creek Water Treatment Plant (MCWTP) based on the results of the Structural Evaluation. In Fiscal Year 2021 and Fiscal Year 2022, the WTP rehabilitation and upgrades will include filter improvements, rehabilitation of the flash mixer, rehabilitation of floc basin #2, and rehabilitation of the clearwells and pump rooms.

Funding Strategy

This project will be funded by Utilities funds.

Expenditures To Date \$1,352,279

Operation Budget Impact

The proposed improvements at the WTP will have a minor net operating impact on the operating budget. Operational expenditures are anticipated to be budgeted in Fiscal Year 2023.

Impact Description	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Operating Expenditures	0	1,130	1,170	1,200	1,240

Infrastructure & Facilities Integrity

Project Description

This project is to program rehabilitation and improvement projects at the Pan American Wastewater Treatment Plant (WWTP).

Project Rationale

In Fiscal Year 2023, the WWTP rehabilitation and upgrades will include the rehabilitation of the aeration basin as well as the chlorine contact chamber and coating.

Funding Strategy

This project will be funded by Utilities funds.

Expenditures To Date \$432,623

Operation Budget Impact

All the improvements made at the wastewater treatment plant will not require any increase in repairs and maintenance since it will be new equipment.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Install a drying bed at the Southwest Wastewater Reclamation Facility to decant the Vacuum Trucks after jetting and cleaning wastewater collection system lines and routinely cleaning and inspecting lift stations to remove heavy rags and debris. This prevents premature pump failure and improves overall operational efficiencies in the collection system.

Project Rationale

In 2017 Utilities purchased a vehicle for televising gravity lines. In 2018, Utilities purchased a new Vacuum truck for jetting and cleaning gravity lines and lift stations. With this equipment, Utilities has an ongoing program for cleaning and televising wastewater collection system gravity lines. The grit and debris from this activity is discharged onto a drying bed to allow the water to drain off and the rags and debris can then be picked up and disposed of properly without damaging pumps, motors or disrupting the treatment plant process. In years past, this was done at our neighboring Utilities, Charlotte County and the City of Venice. Previously, this was done on a quarterly basis, but with the increase in frequency and the daily schedule of cleaning and televising, this has become a weekly need. Our neighboring Utilities have informed us that they cannot continue with this frequency and that we need to find another solution. Additionally, SB 712 puts a focus on wastewater collection system maintenance to reduce inflow and infiltration and increases fines associated with sanitary sewer overflows.

Funding Strategy

This project will be funded by Utilities Fund.

Expenditures To Date \$3,805

Operation Budget Impact

Without a drying bed Utilities could lose the opportunity to apply for future grant funding for the Inflow and Infiltration program. Utilities would need to revert back to reactionary wastewater collection system maintenance rather than being proactive. This can also lead to premature failures at lift stations, blockages in the gravity mains and ultimately could lead to sanitary sewer overflows and environmental impacts.

902,657	127,657	775,000	0	0	0	0	0

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

The project is in various locations of the City. Project locations to be determined and prioritized based on results of fire flow and water quality dynamic hydraulic modeling. Design for the following areas is anticipated to take place in Fiscal Year 2022 with construction to follow: Libby Road, Peake Street, Morandi Avenue, and Tripoli Street.

Project Rationale

To improve potable water distribution system reliability, fire flow, water quality and pressure as well as reduce the amount of flushing necessary to maintain water quality. The project is in various locations of the city. Project locations to be determined and prioritized based on results of fire flow and water quality dynamic hydraulic modeling. Some existing potable piping exceeds 40 years of age and the scattered design of water "distribution" lines with many less than 6" diameter is detrimental to the overall system. Throughout the city, improvements are needed to replace old asbestos cement lines, increase system reliability and fire flow, water quality and pressure, and reduce flushing. The community, as a whole benefits from these projects since the water system supplies water to institutional/commercial/industrial developments.

Funding Strategy

This project will be funded with Surtax and Utilities Funds.

Expenditures To Date \$51,577

Operation Budget Impact

Addition of new pipeline to the distribution system inherently increases operation costs over time. However, improvements should also decrease operations costs by improving water quality in the system, as applicable, and by replacing old asbestos cement main with new, as applicable.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Rehabilitation of the raw water intake structures on the Myakkahatchee Creek and Cocoplum Waterway

Project Rationale

The intake structures on the Myakkahatchee Creek were constructed in approximately 1964 and 1974. The screens, sluice gates and other portions of the structures are deteriorating which may compromise the ability to withdraw water from the Myakkahatchee Creek for production purposes. The Cocoplum Water intake structure is significantly newer and only limited work is anticipated on that structure. An evaluation of all three structures was performed in fiscal year 2021. Design is scheduled to begin in 2022, with construction projected to take place in 2023.

Funding Strategy

This project will be funded by Utilities funds.

Expenditures To Date \$44,114

Operation Budget Impact

The inability to withdraw water from the Myakkahatchee Creek limits the production capability of the surface water treatment plant leading to purchasing more water from the Peace River Manasota Regional Water Supply Authority. Additionally, limiting the intake ability of the plant ultimately would lead to a reduced plant capability and new water sources would need to be found.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

Fiscal year 2023 will be for the design of two bridges on Appomattox Drive with construction to follow.

Project Rationale

To improve the potable water distribution system reliability to the residents of the City. The project is in various locations in the City. Replacement of aged water lines on three bridges is planned, with additional ones in the future. Old steel water lines on bridges have reached end of their service life and pipe deterioration and leaks are on pipe bends that cannot be readily repaired. Some very small leaks are unable to be stopped at this time resulting in un-billed water loss.

Funding Strategy

This program will be funded by Surtax funds.

Expenditures To Date \$0

Operation Budget Impact

Replacement of these pipelines will prevent potential catastrophic failure and emergency repairs, which will be more costly than current planned replacements.

Project Description

This project is to construct a master pumping station and a force main in the vicinity of Toledo Blade Boulevard and Price Boulevard.

Project Rationale

Construct a master pumping station in the vicinity of Toledo Blade and Price Blvd., and a forcemain in the same vicinity. The project was designed and permitted under project U11MSF, however, due to delays in anticipated development, the actual construction portion of the project was moved out in the CIP. Site specific design may change due to further changes in location of the facility. Construction of the pumping station will begin when growth from the Toledo Blade/Price area requires it. Current plans reflect construction beginning in Fiscal Years 2023-2024 and the schedule will continue to be evaluated.

Funding Strategy

This project will be funded by debt issuance and the Utilities Department will only move forward with the project when/if funding is secured.

Expenditures To Date \$0

Operation Budget Impact

The addition of a new pump station and force main to collection and transmission systems inherently increases the operation costs over time.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

This project includes replacement of the reuse pump building and Plant Instrumentation & Controls maintenance building as well as construction of a new building to provide plant operators with designated office space, breakroom and restroom facilities and a remodel of the current shared lab/office building. Purchase of an adjacent parcel may be necessary to provide adequate space for the new office building. The shared lab and operator office building at the Pan American WWTP is original to the plant and is no longer adequate to provide work and rest spaces for plant staff. The current I&C maintenance building does not provide adequate storage for parts and components that need to be kept on hand.

Project Rationale

The shared lab and operator offices at the Pan American WWTP is original to the plant and is no longer adequate to provide works and rest spaces for plant operators.

Funding Strategy

This project will be funded by Utilities funds.

Expenditures To Date \$0

Operation Budget Impact

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

The demolition and replacement of the current powder activated carbon system.

Project Rationale

The current structure that contains the powder activated carbon has deteriorated to a point where replacement is necessary. There are new and more efficient ways to mix and inject the powder activated carbon into the water treatment process as well, which will update the plant process and provide more control and efficiency.

Funding Strategy

This project will be funded by Utilities Fund.

Expenditures To Date \$0

Operation Budget Impact

The water treatment process currently involves the incorporation of powder activated carbon, therefore, there are no anticipated additional operational costs.

Infrastructure & Facilities Integrity

Project Description

This project is for the construction of a sludge press.

Project Rationale

Currently sludge from the surface water treatment process is discharged to the onsite ponds. The sludge is dried by the evaporation of the water from the pond. Once dry, the sludge is removed from the ponds and hauled to a landfill for disposal. Since the drying ponds are open to the atmosphere the sludge does not completely dry and must be removed from the pond and storage adjacent to the pond to complete the drying process. This process leads to the ponds being overcapacity and sludge is sent to the City's wastewater treatment plant where it goes through the entire treatment process. The sludge has deleterious effects on the wastewater treatment process and increases the cost of dewatering and hauling the wastewater treatment plant sludge. The sludge press will eliminate the use of ponds for drying and the necessary diversion of sludge to the wastewater treatment plant.

Funding Strategy

This project will be funded by Utilities funds.

Expenditures To Date \$0

Operation Budget Impact

A sludge press will have electrical, chemical (polymer) and hauling costs. The current process has costs associated with the removal of the sludge from the ponds and hauling, which are already included in the budget. The cost to the wastewater process is difficult to calculate but significant additional sludge is hauled from the WWTP when the WTP is discharging sludge. The overall operating budget impact should be relatively minor. Additional chemical and power but less hauling and elimination of transfers to the WTP. Operational expenditures are anticipated to be budgeted in Fiscal Year 2024.

Environmental Resiliency & Sustainability

Project Description

Myakkahatchee Water Treatment Plant improvements to provide treatment capability of Myakkahatchee Creek water during periods of high total dissolved solids (TDS).

Project Rationale

The implementation of this project will allow the plant to treat more water from the Myakkahatchee Creek during periods of high TDS. The surface water portion of the plant has very limited capability to treat for TDS. Using the combination of the surface water plant and the reverse osmosis plant would allow the system to produce water using the Creek in lieu of the much higher TDS wells.

Funding Strategy

This project will be funded by Utilities Funds.

Expenditures To Date \$0

Operation Budget Impact

The study is not yet complete; however, the alternatives include the use of ultrafiltration membranes which will require additional power to operate. The exact scope of the additional power is difficult to ascertain at the time.

Project Description

Construction cost of oversizing wastewater mains in various locations throughout the City due to development. Specific locations of project are unknown at this time.

Project Rationale

As developers install the necessary mains to serve the development, the city will oversize these lines if needed to serve future growth/connections.

Funding Strategy

This program will be funded by Sewer Capacity Fees.

Operation Budget Impact

No operating impact is expected at this time.

Infrastructure & Facilities Integrity

Project Description

Replacement of old steel water lines on bridges.

Project Rationale

To improve the potable water distribution system reliability to the residents of the City. The project is in various locations in the City. Replacement of aged water lines on three bridges is planned, with additional ones in the future. Old steel water lines on bridges have reached end of their service life and pipe deterioration and leaks are on pipe bends that cannot be readily repaired. Some very small leaks are unable to be stopped at this time resulting in un-billed water loss.

Funding Strategy

This program will be funded by Surtax funds.

Operation Budget Impact

Replacement of these pipelines will prevent potential catastrophic failure and emergency repairs, which will be more costly than current planned replacements.

Strategic Pillar

Infrastructure & Facilities Integrity

Project Description

The project is in various locations of the City. Project locations to be determined and prioritized based on results of fire flow and water quality dynamic hydraulic modeling.

Project Rationale

To improve potable water distribution system reliability, fire flow, water quality and pressure as well as reduce the amount of flushing necessary to maintain water quality. Some existing potable piping exceeds 40 years of age and the scattered design of water "distribution" lines with many less than 6" diameter is detrimental to the overall system. Throughout the city, improvements are needed to replace old asbestos cement lines, increase system reliability and fire flow, water quality and pressure, and reduce flushing. The community, as a whole benefits from these projects since the water system supplies water to institutional/commercial/industrial developments.

Funding Strategy

This program will be funded with Surtax and Utilities funds.

Operation Budget Impact

Addition of new pipeline to the distribution system inherently increases operation costs over time. However, improvements should also decrease operations costs by improving water quality in the system, as applicable, and by replacing old asbestos cement main with new, as applicable.
